Prevent Scooter, Moped and Motorcycle Theft

12 Common Sense Tips that can reduce your chances of becoming a target for Theft.

- Add** **Anti-Theft Devices including Brake Disc Locks; Lockable Cables or U locks.**
Make sure they are locked through the frame and away from the ground.

- Avoid** **Parking in Large Parking Areas.**
- Be Aware** **of your surrounding when parking the bike.**
If someone seems to be following you, pull over and let them pass before you park.

- Cover** **your bike to make it less likely to be targeted. Do not use "brand" covers.**
- Create** **a "kill Switch" or remove a fuse when you park.**
- Install** **a Motion Alarm for tampering.**
Even adding "Alarm Installed" stickers could discourage thieves

- Lock** **your Ignition and Lock your Steering with Separate Locks.**
- Make** **a Record of your key numbers.**
Remember anyone with that number can have a key cut to fit.

- Park** **in a well-lit location; near a Security Camera or in Plain Sight.**
- Take** **the key and Take your Registration Papers.**
- Track** **your bike with a GPS Tracking System.**
- Use** **a Garage instead of leaving it parked outside.**

Keep these tips in mind and Enjoy the Ride!
